1 CVC Words

Today, we are going to learn about a special type of words called CVC words. CVC stands for Consonant-Vowel-Consonant. These words are made up of three letters: one consonant, one vowel, and another consonant. They might seem like a puzzle, but once you understand the pattern, you'll be able to read and spell them in no time!

Explanation

Let's break it down! A consonant is a letter that isn't a vowel. Can you think of some consonant letters? Very good! Examples of consonant letters are 'b,' 'c,' 'd,' 'f,' and so on. Can you think of a vowel now? Great! Vowels are the letters **a, e, i, o, u**.

Now, imagine we have three coloured blocks. One block is **blue** (a consonant letter), the middle block is **red** (a vowel letter), and the last block is **green** (another consonant letter). When we put these blocks together, we create a CVC word!

Examples

Let's make the word 'cat'. "C" is our first consonant, "a" is our vowel, and "t" is our last consonant. So, when we put these sounds together, we get the word cat. Can you think of any other CVC words? Some other examples are dog, pig, bat, and cup.

Practice activity idea

To practice CVC words, we can play a fun game! We can have a set of letter cards with different CVC letters (like 'c,' 'a,' 't'), and we can shuffle them. Then, we take turns picking letter cards and trying to read the word we created. For example, if we pick 'c,' 'a,' and 't,' we make the word 'cat.' You can also draw pictures of CVC words and challenge each other to guess what the word is.

Conclusion

Now you know all about CVC words! They are special words made up of three letters: a consonant, a vowel, and another consonant. By practicing and playing games, you will become confident in reading and spelling CVC words in no time.
